Covering Letter

2009 brings me into my 13th year of working with computers. Initially this was only for fun, but as my skills have developed, my passion for IT has largely grown. Since the beginning of 2009, I have been self employed and therefore used this opportunity to further enhance my skills, in the relevant areas, such as: customer service; web developer and graphic design.

In August 2006, I began a 2 year course, to formally train and study as a Media and Graphic Designer (non-print) with Business English. I have a strong knowledge in CSS, HTML, xHTML, SQL, Photoshop, Illustrator, Dreamweaver, Indesign, CMS, Community Software, Shops and Blogs. Currently, I am learning Flash (Actionscript), PHP, and AJAX in order to grow as a more versatile designer. Having formally trained in non-print, my recent experience and skills have also supported my print skills.

Some previous projects include;

www.schwalbensiedlung.de	(Community Network)
www.long-lasting.de	(Bilingual Website + Leaflets, Business Cards, Vouchers, Pricelists)
www.koci-berlin.de	(Website + Leaflets, Business Cards, Vouchers, Pricelists)
www.fs-knittel.de	(Website + Business Card)

Having lived in Berlin for 29 years, I am now at a point in my career, where I am searching opportunity firstly, to work as part of a team, where mine and others skills can be shared and developed, and secondly, to work in the UK (London), where I can use my English skills. Being both fluent in German and English, I feel I would bring many skills to the right team. I am a positive person with excellent communication skills, a team player as well as somebody who works well independently and under pressure.

I am extremely passionate about the work I do, and will always go the extra step further to ensure a project has been given the focus and commitment it needs.

I will be moving to Croydon in the middle of August, and will therefore be searching for immediate employment.

Patrick Krisch
